SUMMARY: -

I am Anshul Bhathija, currently pursuing a Bachelor's degree in Computer Science and Engineering at Bennett University. With a solid foundation in software development and full-stack development, I am passionate about utilizing technology to address real-world challenges. I actively participate in hackathons and coding competitions, continuously honing my skills and staying abreast of industry trends. I am eager to contribute to collaborative projects that foster innovation and drive meaningful advancements within the tech industry.

PROJECTS :-

NETFLIX CLONE :-

AUGUST 2024 - PRESENT

Developing a Netflix clone with HTML and CSS involves building a responsive and visually appealing static interface that replicates Netflix's layout, including headers, navigation, and content areas, without interactive features or video playback.

CITY CARE :-

AUGUST 2024 - PRESENT

City Care is your go-to healthcare solution, connecting you with doctors and essential services. It offers real-time hospital bed availability, an emergency button for urgent prioritization, and a symptom checker for quick health assessments. Leveraging technologies like *React, Tailwind, Node.js, and Mongoose, City Care* provides a seamless and responsive experience for timely medical support and accurate information.
